

STRATEGIC ADVISORY FOR NATIONAL RESILIENCE

Advancing national security and resilience through integrated strategy, intelligence, and operational expertise.

PROTECT WHAT MATTERS

Safeguarding people, assets, and sovereignty.

INFORMED DECISIONS

Turning intelligence into decisive action.

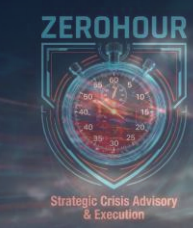

INTEGRATED APPROACH

Uniting policy, operations, and technology.

TRUSTED PARTNER

Delivering measurable impact and lasting value.

OUR ADVISORY DOMAINS

ZeroHour brings together multidisciplinary expertise across the critical domains that define modern resilience. Our advisory combines strategic planning, operational experience, and advanced technologies to help governments, critical infrastructure, and enterprises prepare for complex crises.

All engagements are confidential.

Scope and methodology are tailored to each client's threat environment, organizational structure, and operational requirements.

01

Cyber Security & Digital Resilience

DIGITAL READINESS

Strengthening cyber readiness, protecting critical digital assets, enhancing incident response capabilities, and ensuring operational continuity against evolving cyber threats.

02

Defense & Dual-Use Technologies

TECHNOLOGY ADVISORY

Advising on the adoption, integration, and operational deployment of advanced defense and dual-use technologies that enhance mission effectiveness and national resilience.

03

Oil, Gas & Critical Infrastructure

HOLISTIC PROTECTION

Integrated physical and cyber protection for mission-critical operations — combining autonomous aerial surveillance, advanced control-room capabilities and specialized OT/SCADA cybersecurity.

04

Energy Infrastructure & Critical Resilience

INFRASTRUCTURE PROTECTION

Supporting the protection and resilience of energy, utilities, transportation, telecommunications, and other critical infrastructure against physical, cyber, and operational disruptions.

05

Home Front & Civil Preparedness

CIVIL DEFENSE ADVISORY

Helping governments and public agencies strengthen civil defense, emergency management, public communication, continuity of essential services, and community resilience during national emergencies.

06

Health Systems Preparedness & Disaster Management

MEDICAL RESILIENCE

Improving healthcare resilience through emergency preparedness, disaster response planning, surge capacity development, and operational continuity for medical systems.

07

Tactical Gear & Non-Lethal Equipment

EQUIPMENT ADVISORY

Advisory on the selection, procurement, and operational deployment of tactical non-lethal equipment for military and law enforcement — from individual kit to unit-level systems.
